# *Market report: ICT sector in Poland*

The ICT sector in Poland employs 430 000 people. The share of ICT industry in GDP amounts to around 8%. The number of ICT companies increased by 24.5% in 2011-2014. The number of persons working in the sector increases at the rate of around 6% annually. More than three quarters of persons employed in the sector work in ICT services, of which most are persons employed in IT services. The largest revenues in the sector are generated by services, telecommunications in particular. IT companies are responsible for two thirds of the revenues in the sector.

In the past 5 years in Poland digitally advanced sectors were growing almost 3 times faster than less advanced ones. Service companies with operations based on the work of Polish programmers have the largest share in IT exports. ITO (Information Technology Outsourcing) centres have been opened in Poland by companies such as Luxoft, Tieto, BLStream, Sii, and C&F. According to forecasts, up to 240 thousand persons could work in Polish BPO, ITO, R&D and call centres in 2018.
