## ***Did you know that...***

**Furniture sector** is the second biggest - after automotive accessories - industry in Poland in terms of the value of exports. In 2016, Poland was the fourth biggest exporter of furniture globally, after China (37% of the global exports' share), Germany (7.2% of global exports' share) and Italy (5.6% of global exports' share). In foreign sale of furniture, Poland took over such countries as the US, Mexico and Vietnam. Polish furniture industry has an ambitious plan for the incoming future. By 2020 it is planning to reach the top of the list of the EU furniture exporters.

**Hand-sewn suits from Wroclaw conquer the world.** A perfectly tailored suit is a gentleman's business card. If you need to tailor one, do not go to Italy or UK. Just visit Poland! One of the best hand-sewn suits are made by Wroclaw-base TWINS Bespoke. At the time when the clothing industry is flooding with mass production, Polish company is returning to the art of haute couture, combining Polish Interwar Period tailoring's tradition with new technologies. TWINS brand bases on classical, non-industrial production by using only the highest quality, natural materials such as silk and cotton linings, pearly or horn buttons.
